

CURRICULUM VITAE

Date: March 8, 2016

Claudia Buss

Department of Medical Psychology
Charité Universitätsmedizin Berlin
Luisenstrasse 57
10117 Berlin, Germany
Telephone: +49 (0)30 450529222
Fax: +49 (0)30 450529990
E-mail: claudia.buss@charite.de

EDUCATION

- Feb. 2007 – Nov. 2010** **University of California, Irvine**
Postdoctoral Researcher,
Department of Psychiatry and Human Behavior
- Jan. 2003 – Dec. 2006** **University of Trier, Germany**
Doctoral Researcher,
Department of Clinical and Theoretical Psychobiology
Ph.D.
- Oct. 2003 – Sep. 2005** **McGill University, Montreal, Canada**
Doctoral Researcher,
Departments of Psychiatry, Neurology and Neurosurgery
- Oct. 1997 – Dec. 2002** **University of Trier, Germany**
M.Sc. (Diploma) studies in psychology

ACADEMIC POSITIONS

- Since Jan. 2013** **Charité Universitätsmedizin Berlin, Germany**
Professor,
Department of Medical Psychology
- Since Dec. 2010** **University of California, Irvine, USA**
Assistant Professor,
Department of Pediatrics (since January 2013 part-time faculty)

- Feb. 2007 – Nov. 2010** **University of California, Irvine, USA**
Postdoctoral Researcher,
Department of Psychiatry and Human Behavior
- Oct. 2003 – Sep. 2005** **McGill University, Montreal, Canada**
Research Associate,
Departments of Psychiatry, Neurology and Neurosurgery
- May 2000 – Dec. 2002** **University of Trier, Germany**
Student Research Assistant

RESEARCH INTERESTS

Pre- and Postnatal Programming of Life-span Development

- Pre-and Postnatal Programming of Brain Development
- Transgenerational Transmission of Early Life Stress
- Effects of Maternal Stress on Fetal Development and Birth Outcomes
- Developmental Origins of Infant and Adult Health and Disease
- Maternal-placental-fetal Endocrinology and the Biology of the Stress Response in Pregnancy
- Gene-environment Interactions in Human Fetal and Infant Development
- Influence of Sociodemographic and Psychosocial Factors and Health Behaviors on Reproductive and Developmental Health Outcomes
- Ecological Momentary Assessment Methodologies and Applications in Human Pregnancy
- Child Developmental and Health Outcomes
- Neuroimaging of Stress Effects on the Brain Across the Life Span
- Early Life Determinants of Successful Aging

TEACHING

Charité, Universitätsmedizin, Berlin, Germany

- Since 2013** Model Curriculum Human Medicine, Biopsychosocial Aspects in Medicine, Lecture, Module 1
- Model Curriculum Human Medicine, Memory and Learning Strategies, Seminar, Module 1
- Model Curriculum Human Medicine, Stress and Stress Processing, Seminar, Module 6

Model Curriculum Human Medicine, Ethical Basis for Medical Thinking and Acting: “Planned Children and Design Babies”, Seminar, Modules 9-12

Model Curriculum Human Medicine, Developmental Programming of Health and Disease, Seminar, Module 20

Model Curriculum Human Medicine, The Stressed Brain, Seminar, Module 20

Model Curriculum Human Medicine, Gene*Environment Interactions, Seminar, Module 31

Model Curriculum Human Medicine, Prenatal Diagnostics, Seminar, Module 33

Health Sciences, Bachelor Studies, Developmental Programming of Health and Disease Prenatal Diagnostics, Lecture

University of California, Irvine, USA

Since 2011 Lecture Series in the Development, Health and Disease Research Program for Medical Fellows

Since 2007 Directed Studies/ Special Studies (Bio Sci/ Soc Eco 198/199) in psychobiology of pregnancy and fetal/ infant development course for undergraduate students

2007 Co-Instructor: Development, Health, and Disease for graduate and undergraduate students, Spring quarter

University of Trier, Germany

2006 Co-Instructor: Neuropattern: Development of a new diagnostic system for stress-related disorders for graduate students, Summer semester

2005-2006 Selected Questions in Psychobiological Research for graduate students

McGill University, Montreal, Canada

2005 Co-Instructor: Psychopathology for medical students, Summer semester

EXAMINATIONS

1. November 2014, Opponent in dissertation defense, University of Helsinki, Finland.
2. January 2015, Examiner in dissertation defense, Graduate School of Health & Medical Science, University of Copenhagen.
3. Since 2013, Examiner in defense of theses for MD degrees and habilitations, Charité University Medicine Berlin, Germany.

SUPERVISION OF STUDENTS

Master Students

1. *Alice Kaack*, Free University Berlin, Social, Cognitive and Affective Neurosciences (Master's Degree). Topic: The Role of Immune-Endocrine Interactions in Pre- and Postnatal Depression. Since June 2015 (1st supervisor).
2. *Romy Seidl*, Charité University Medicine Berlin. Medical and Nursing Sciences. Topic: Prevention of Burn-out among Midwives in Training. Since June 2015 (co-supervisor).
3. *Georgina Sket*, Free University Berlin, Social, Cognitive and Affective Neurosciences (Master's Degree). Topic: Neonatal Structural Brain Connectivity and Neurocognitive Development during the First Year of Life. Since June 2015 (1st supervisor).
4. *Philipp Töpfer*, Charité University Medicine Berlin and University of Osnabrück (Diploma in Psychology). Topic: The Influence of Early Life Stress and Current Depression on Immune Function in Pregnancy. Jan – Aug 2014 (1st supervisor).
5. *Clarissa Nafe*, Charité University Medicine Berlin, Medical and Nursing Sciences. Topic: Physical Activity during Pregnancy. Oct 2013 – May 2014 (co-supervisor).

Doctoral Students

1. *Leonie Klaumünzer* (cand. Dr. med.), Charité University Medicine Berlin. Topic: The influence of Omega 3 Fatty Acids on Fetal Brain Development. Since Mai 2015 (1st supervisor).
2. *Saskia Schiller* (cand. Dr. med.), Charité Universitätsmedizin Berlin. Pre- and Postnatal Programming of Infant Stress Reactivity. Since October 2014 (1st supervisor).
3. *Philipp Töpfer* (cand. Dr. rer.medic.), Charité University Medicine Berlin. Topic: Intrauterine Programming of Maternal Behavior. Since September 2014 (1st supervisor).
4. *Jerod Rasmussen* (cand. PhD), University of California Irvine, USA. Topic: Fetal Programming of Infant Neural Circuits that Underlie Appetite Regulation. Since June 2013 (involvement: Doctoral Candidacy Committee, advanced to candidacy in June 2015, co-supervisor).
5. *Nora Moog* (cand. Dr. rer.nat.), Charité University Medicine Berlin und Berlin Graduate School of Mind and Brain. Stipend by the Elsa Neumann Foundation. Topic: The Role of Maternal Thyroid Hormones in Programming Fetal Brain Development. Since January 2013 (1st supervisor).
6. *Judith Overfeld* (cand. Dr. rer.nat.), Charité University Medicine Berlin. Topic: The Influence of Early Life Stress on Child Brain Development. Since January 2013 (co-supervisor).

Postdoctoral Students

1. *Dr. Karen Lindsay*, University of California Irvine, Department of Pediatrics. Topic: Metabolomic Changes over the Course of Pregnancy. Since January 2015 (co-supervisor).
2. *Dr. Alice Graham*, Oregon Health and Science University, NRSAD Fellowship, Topic: Pre- and Postnatal Programming of Infant Neural Networks Implicated in Executive Functioning. Since August 2013 (co-supervisor).
3. *Dr. Molly Fox*, University of California Irvine, Department of Psychiatry and Human Behavior. Topic: Intergenerational Transmission of the Effects of Acculturation on Health. February 2013 – November 2014 (co-supervisor).
4. *Dr. Jessica DeHaene*, University of California Irvine, Department of Psychiatry and Human Behavior. Topic: Maternal Nutrition During Pregnancy and Fetal Development. February 2010 – December 2012 (co-supervisor).

Medical Research Fellows

1. *Satoru Ikenoue*, University of California Irvine, Topic: Intrauterine Stress and Hepatic Blood Flow. Since June 2014 (co-supervisor).
2. Masanao Ohashi, University of California Irvine, Topic: Fetal Predictors of Infant Adiposity. December 2012 – June 2014 (co-supervisor).
3. Kaeko Sumiyoshi, University of California Irvine, Topic: Assessment of Fetal Adiposity Using Ultrasonography. June 2010 – December 2012 (co-supervisor).
4. Annie Nguyen, University of California Irvine, Topic: Quantification of Hepatic Fat in Newborns using Magnetic Resonance Imaging (MRI). December 2010 – June 2012 (co-supervisor).

RESEARCH GRANTS

Current Funding

1. Principal Investigator
Transgenerational Transmission of Maternal Childhood Trauma and its Sequelae
European Research Council Starter Grant
€ 1,200,000 direct costs
11/2015-10/2020
2. Principal Investigator (Co-PI status with Pathik Wadhwa)
Intergenerational Effects of Maternal Childhood Trauma on the Fetal Brain
NIH/National Institute of Mental Health (NIMH)
R01 MH105538
\$ 2,488,650 direct costs
07/2015 - 06/2020
3. Principal Investigator (Co-PI status with Damien Fair)
Early markers to predict cognition and brain development
Gates Foundation
\$ 100,000 direct costs
11/14-10/2015
4. Principal Investigator
Biological Mechanisms of Transgenerational Transmission of Early Life Stress
ERA-NET NEURON European Commission
\$ 1,196,060 direct costs
05/2014-04/2017
5. Principal Investigator
Fetal Programming of the Newborn and Infant Human Brain
NIH/National Institute of Mental Health
R01 MH091351
\$2,203,933 direct costs
12/2010-11/2016 (including a 1-year no-cost extension)

6. Principal Investigator
Fetal Programming of Brain Functional Connectivity in Neonates and Infants
NIH/National Institute of Mental Health
Supplement to R01 MH091351
\$322,324 direct costs
12/2012-11/2016 (including a 1-year no-cost extension)
7. Principal Investigator (Co-PI status with Sonja Entringer)
Brown Adipose Tissue and its Metabolic Correlates in Human Newborns and Infants
NIH/ National Institute of Diabetes and Digestive and Kidney Diseases
R21 RDK098765
\$192,344 direct costs
04/2013-03/2016 (including a 1-year no-cost extension)
8. Co-Investigator (Christine Heim, PI)
Fetal Programming of Brain Development by Maternal Thyroid Hormone and Interleukin-6
Neurocure Excellence Cluster at Charité University Medicine Berlin
\$ 21,544 direct costs
09/2015-12/2015
9. Co-Investigator (Christine Heim, PI)
Biological Embedding of Maltreatment: Berlin Longitudinal Children Study
German Ministry of Science and Education
\$ 2,154,420 direct costs
07/01/2013-06/30/2016
10. Co-Investigator (Sonja Entringer, PI)
Prenatal Stress Biology, Infant Body Composition and Obesity Risk
NIH/National Institute of Child Health and Human Development
R01 HD065825
\$ 1,965,485
07/2010-06/2016 (including a 1-year no-cost extension)
11. Co-Investigator (Pathik D. Wadhwa, PI)
EMA Assessment of Biobehavioral Processes in Human Pregnancy
NIH/National Institute of Child Health and Human Development
R01 HD060628
\$ 2,364,828
02/2010-01/2016 (including a 1-year no-cost extension)
12. Co-Investigator (Pathik D. Wadhwa, PI)
Fetal Programming of Newborn and Infant Telomere Biology
NIH/National Institute of Child Health and Human Development
Type 3 R01 (competitive supplement) HD-060628
\$ 498,892 direct costs
04/13 - 01/2016 (including a 1-year no-cost extension)

Previously held/ completed FundingPrincipal Investigator

13. *National Children's Study Formative Research Study: Self Report and Biological Measures of Maternal Stress Using Ecological Momentary Assessment (EMA) Methodology*
NIH/National Institute of Child Health and Human Development
HHSN-275200503415C
\$ 236,915
10/2010-09/2012
14. Postdoctoral Research Scholarship Award
Maternal Corticotrophin-Releasing Hormone during pregnancy: a predictor for endocrine, cognitive and neural development in six- and seven-year-old Children.
DFG (# BU 2160/3-1)
06/2007-05/2009
15. Doctoral Research Scholarship Award
Pre- and Postnatal Programming of the Hypothalamic-Pituitary-Adrenal Axis Related Outcomes.
Cusanuswerk
07/2003-06/2006

Co-Investigator

16. Co-Investigator (Pathik Wadhwa, PI)
National Children's Study Formative Research Study: Self-Reported Stress and Cortisol Measurement. Development of an Optimized Measure of Chronic Stress in Pregnancy.
NIH/National Institute of Child Health and Human Development
HHSN-275200503415C
\$172,949
10/2010-09/2012
17. Co-Investigator (Sonja Entringer, PI)
National Children's Study Formative Research Study: Biological Moderators of Cortisol in Pregnancy.
NIH/National Institute of Child Health and Human Development
HHSN-275200503415C
\$ 236,326
10/2010-09/2012
18. Co-Investigator (Tim Wigal, PI)
Follow-Up of the Multimodal Treatment Study of Children with Attention Deficit Hyperactivity Disorder (MTA Study)
NIH/National Institute of Drug Abuse
HHSN271200800006C
\$ 1,299,836
04/2010-09/2012

19. Co-Investigator (Curt A. Sandman, PI)
Fetal Programming of Early Development
 NIH/National Institute of Child Health and Human Development
 R01 HD051852
 \$ 2,418,862
 07/06-07/2012

SCHOLARSHIPS AND AWARDS

RESEARCH AWARDS

September 2015 Curt Richter Award by the International Society for Psychoneuroendocrinology

Jun. 2007 – May 2009 **RESEARCH SCHOLARSHIPS**

Fellowship by the German Research Foundation (DFG) for postdoctoral research in developmental psychobiology at the University of California, Irvine, USA

Jul. 2006 – Sep. 2006 Ph.D. scholarship by the University of Trier, Germany

Jul. 2003 – Jun. 2006 Scholarship of the “Cusanuswerk” (Cusanuswerk government scholarship) for Ph.D. studies in Psychology/ Psychobiology at the University of Trier, Germany

TRAVEL AWARDS

Nov. 2009 Developmental Origins of Health and Disease (DOHaD) Society for participation in the society’s annual conference held in Santiago, Chile

Mar. 2009 American Psychosomatic Society (APS) for participation in the society’s annual conference held in Chicago, IL, USA

Feb. 2009 Stipend to attend the Winter Neuropeptide Conference in Breckenridge, CO, USA from the local organizing committee

Aug. 2006 Stipend to attend the Lille Summerschool on Neurplasticity over the Lifespan from the local organizing committee and the German Research Foundation (DFG)

Sep. 2005 German Research foundation (DFG) for participation in the Conference of the International Society for Psychoneuroendocrinology (ISPNE) in Montreal, Canada

- Jul. 2004** International Society for Psychoneuroendocrinology (ISPNE) for participation in the society's annual conference held in Glasgow, UK
- Jul. 2004** German Volkswagen Foundation for participation in the Third Trier Summerschool on Early Programming of Health and Disease, Trier, Germany
- 2003 – 2005** Travel stipends for a collaborative research project by the Douglas Hospital Research Center, McGill University, Canada and the "Cusanuswerk"
- POSTER AWARD**
- Jul. 2006** Lille Summerschool on Neuoplasticity over the Lifespan, Lille, France
"Maternal Care Modulates the Relationship between Prenatal Risk and Hippocampal Volume"

PUBLICATIONS

Journal articles and book chapters, peer-reviewed

INVITED PRESENTATIONS

1. *Prenatal Programming of Human Brain Development*. Grand Rounds Department of Psychiatry and Human Behavior, University of California, Irvine, USA, December 2009.
2. *Impact of Prenatal Factors on Cognitive Development*. Invited presentation at the University of Bonn, Germany, February 2011.
3. *Prenatal Programming of Susceptibility for Mental Disorders*. Invited lecture at For OC Kids Neurodevelopmental Center, Orange, CA, July 2011.
4. *Developmental Programming of Health and Disease*. Orange County Health Care Agency, Santa Ana, CA, July 2011.
5. *Fetal Programming of Newborn and Infant Brain Development and Obesity Risk*. Grand Rounds Department of Epidemiology, University of California, Irvine, USA, July 2011.
6. *Prenatal Programming of Neurocognitive Development*. Invited presentation at the Charité, Berlin, Germany, February 2012.
7. *Early Life Origins of Psychopathology Susceptibility*. Invited lecture at the McGill Centre for Studies in Aging, McGill University, Montreal, Canada, March 2012.
8. *Fetal Programming of Neurocognitive Development - Considering the role of intrauterine stress and stress biology in programming susceptibility for psychopathology*. Invited speaker at the European Society for Pediatric Endocrinology, Crete, Greece, May 2012.
9. *Fetal Programming of Brain Development - Role of Intrauterine Stress and Stress Biology in Susceptibility for Psychopathology*. Invited lecture at the Laboratory for Experimental Fetal Maternal Medicine at the University of Hamburg Eppendorf, Hamburg, Germany, August 2012.
10. *Fetal Programming of Brain Development - Role of Intrauterine Stress and Stress Biology in Susceptibility for Psychopathology*. Grand rounds at the Department of Psychiatry and

- Psychotherapy at the Charité Campus Mitte, Berlin, Germany, February 2013.
11. *Prenatal Programming of Susceptibility for Psychiatric Disorders*. Psychiatry Platform in the context of the Berlin Institute of Health (BIH), Berlin, Germany, June 2013.
 12. *Fetal Programming of Brain Development - Role of Intrauterine Stress and Stress Biology in Susceptibility to Psychopathology*. Endocrine Society, San Francisco, CA, USA, June 2013.
 13. *Fetal Programming of Brain Development - Role of Intrauterine Stress and Stress Biology in Susceptibility to Psychopathology*. University of Edinburgh, UK, January 2014.
 14. *Prenatal Endocrine and Immune Stress Biology and Newborn Brain Maturity*. NIMH Workshop: Pushing Translational Boundaries: Advances in Developmental Neuroimmunology & Mental Health. Bethesda, MD, USA, May 2014.
 15. *Programming of Fetal Brain Development*. Neurocure Lunch Seminar Series, Charité, University Medicine, Berlin, Germany, June 2014.
 16. *Early Life Stress and Neurodevelopment*. Northwestern University, Department of Medical Social Sciences, Chicago, IL, USA, August 2014.
 17. *Fetal Programming of Brain Development - Role of Intrauterine Stress and Stress Biology in Susceptibility to Psychopathology*. Department of Clinical Science, University of Turku, September 2014.
 18. *Early Life Stress and Brain Development – Implications for Cognitive Function and Mental Health*. Memory Symposium by the Gyllenberg Foundation “From neurobiological underpinnings to reminiscences in culture, Helsinki, Finland, September 2014.
 19. *Fetal Programming of Neurodevelopment and Risk for Psychiatric Disorders – the Role of Intrauterine Stress and Stress Biology*. University of Helsinki, Finland, Institute of Behavioural Sciences, November 2014.
 20. *Early Life Stress and Brain Development – Implications for Cognitive Function and Mental Health*. Leibniz Institute for Zoo and Wildlife Research, December 2014.
 21. *Stress and Trauma during Early Life – Consequences for the Next Generation?* Urania, Berlin, May 2015.
 22. *Fetal Programming of Neurodevelopment and Risk for Psychiatric Disorders – the Role of Intrauterine Stress and Stress Biology*. Department of Medical Genetics, University of British Columbia, Vancouver, BC, August 2015.
 23. *Prenatal Programming of Brain Development*. Invited lecture at research colloquium for Master students. Department of Psychology, University of Zurich, Switzerland, September 2015.
 24. *Frühe Ursprünge psychiatrischer Störungen – Wie früher Stress die Gehirnentwicklung beeinflussen kann*. SPZ-Symposium, Winterthur, Switzerland, November 2015.
 25. *Pränatale Programmierung der Gehirnentwicklung – Implikationen für kognitive Leistungsfähigkeit und mentale Gesundheit*. Universität Konstanz, January 2016.

26. *Developmental Programming of Brain Development - Implications for Mental Health and Disease.* Ruhr Universität Bochum, January 2016.

PRESENTATIONS

Conference Presentations, peer-reviewed (Oral Presentations)
